

PULSE CINEMA

Multi-Room Streaming Soundbar

IMMERSIVE DOLBY ATMOS® SOUND The PULSE CINEMA delivers big, lifelike sound from a single, sleek soundbar. With 16 custom-tuned drivers, including dedicated upfiring speakers and a center channel, it creates an expansive 3.2.2 Dolby Atmos® soundstage. From crisp dialogue to deep bass, every detail is elevated. You can personalize your soundstage with three adjustable Listening Modes — Movie, Music, and Late Night — each offering a distinct Dolby Atmos-enhanced profile. Setup is simple with HDMI eARC connectivity, eliminating the need for a receiver or extra gear.

HOME THEATER SIMPLIFIED Build a full surround sound system without the clutter. The PULSE CINEMA works seamlessly with other Bluesound speakers for a complete surround setup. Everything is managed through the BluOS Controller app, making it easy to stream music, group zones, and control your system — or your entire BluOS multi-room setup — from anywhere in your home.

ADAPTS TO YOUR SPACE, AUTOMATICALLY Designed to fit your space, the PULSE CINEMA includes a wall-mount bracket or can be placed on a media stand. Its drivers and DSP automatically adjust based on orientation, so there's no need for manual setup. With its low-profile form factor, it blends into any room while delivering powerful performance.

ALL-IN-ONE PERFORMANCE FOR TV & MUSIC Whether you're watching a movie, listening to playlists, or playing games, the PULSE CINEMA handles it all. Built-in amplification and Dolby Atmos® decoding mean you get full-range sound with no AVR required. Just one soundbar — no racks, no receivers — for rich, spacious audio that's ready when you are.

VERSATILE CONNECTIONS, SIMPLE CONTROL The PULSE CINEMA keeps setup easy with HDMI eARC, optical and analog inputs, and a dedicated subwoofer output for wired or wireless bass expansion. Everything is controlled through the BluOS Controller app, so you can stream music, adjust settings, or create multi-room setups without the need for extra remotes or complicated interfaces.

- 3.2.2 SPEAKER CONFIGURATION
- 16 DRIVERS
- DEDICATED LEFT-CENTER-RIGHT + LEFT-RIGHT HEIGHT CHANNELS
- SMART DSP AMPLIFICATION
- 500 WATTS OF SYSTEM POWER
- DOLBY ATMOS®
- HDMI eARC INPUT
- OPTICAL TOSLINK INPUT
- STEREO RCA INPUT
- SUBWOOFER OUTPUT; WIRED OR WIRELESS
- PROGRAMMABLE QUICK-TOUCH-PRESETS
- USER INTERFACE WITH PROXIMITY SENSOR
- BLUOS™ WIRELESS MULTI-ROOM PLATFORM
- QUAD-CORE 1.8GHZ ARM® CORTEX™ A53 PROCESSOR
- MQA AND HI-RES MUSIC STREAMING
- DSD256 PLAYBACK
- AIRPLAY 2 INTEGRATION
- SPOTIFY CONNECT + TIDAL CONNECT
- LOCAL SERVER MODE
- DUAL-BAND WIFI + GIGABIT ETHERNET
- BLUOS™ BONDED SPEAKER LINK
- TWO-WAY APTX™ ADAPTIVE BLUETOOTH
- IR REMOTE LEARNING CAPABILITY
- WALL MOUNT BRACKET INCLUDED
